On-premise License

Many enterprise organizations have the staff and expertise needed to fully manage the LBi HR HelpDesk infrastructure in their own environment. LBi's On-premise License gives these clients the option to internally manage our solution.

If you choose this option, LBi will provide all of the recommended server specifications, based on your specific business needs. We will work with your IT staff to help implement and optimize your environment for maximum performance and stability. We also offer full infrastructure implementation services, including server installation (OS, database, Web server), configuration, system tuning, and backup/disaster recovery processes.
